## Position

This position is within Disability Services. It is part of various team/s.

- This position reports to the Team Leader or Manager
- Reporting line may vary depending on location and service size
- This position does not have any direct reports  This position may have direct reports, positions vary
- This position has the following direct reports:  
This position is designated Band 7 under the *Schedule of Authorities and Delegations*
- This position is a budget holder  This position has designated revenue targets
- This position is an Aboriginal & Torres Strait Islander identified position
- This position does require a working with children related clearance

## Purpose

The purpose of this position is to work collaboratively with clients and services to undertake comprehensive assessments to develop, implement, monitor and review client plans that enable children and adults of all ages to achieve their goals through music.

## Focus

### To achieve this purpose, the position holder would typically

- Work with a range of designated clients utilising a referral based service model. Music therapists may work with individuals or multiple stakeholders relating to the individual and/or family and may be required to carry a caseload of designated clients, depending on the service type.
- Coordinate the delivery of music therapy services to assess, diagnose and treat children and adults with development challenges.
- Conduct assessments and work with other Practitioners and clients to contribute to the development, implementation, monitoring and review of the client plan, as appropriate to the circumstances.
- Conduct home visits and visits to the community as required.
- Refer to and liaise with other medical and allied health professionals as required.
- Act as a subject matter expert in the area of music therapy.
- Coach, advise and provide on the job support to team members and carers to improve their skills and knowledge in the areas of music therapy evidence based interventions and practice to improve client outcomes.
- Plan, develop and facilitate or co-facilitate therapeutic groups and workshops for clients and other stakeholders internal and external to the organisation relating to specialisation.
- Attend review meetings, case conferences, and other meetings and ensure appropriate documentation is kept.
- Work with the Manager and other team members to build capability across the team.
- Advise the Manager of any significant changes or concerns regarding the client, their home environment, wellbeing, their services, or other risks, as soon as possible.
- Make child protection reports to the community services helpline when assessed as necessary, in consultation with the Team Leader or Manager.
- Document and create reports on client services using technology and paper based systems in a clear, logical, understandable and timely way.

### This position may be offered as a specialisation:

- For example, Senior Music Therapist

**Where the role is offered as a specialisation the position holder would typically:**

- Support clients with more complex needs.
- Coach, advise and provide on the job support to other team members to enhance quality and culturally appropriate music therapy interventions.
- Promote evidence based music therapy practice and provide coaching, mentoring and supervision to other music therapy staff.
- Work in collaboration with other Senior Clinicians to monitor, develop and improve clinical service provision.

**When things are going well we would expect to see these outcomes:**

- Outcomes
- The way we work with clients with complex needs is effective and appropriate support interventions are identified
  - Disability service staff and families feel supported when working with clients with complex needs
  - Processes and frameworks are well understood within the team
  - Music Therapy support services are timely and effective

**We work collaboratively with others, however this position works close closely with:**
